

July/August 2018

Dear Supporters and Prayer Partners,

I trust this letter finds you well and rejoicing in the goodness of God. We had a busy, albeit short summer, here in the Arctic. The warmer weather came later than normal this year, and it didn't last too long. During July we had some days where the temperature reached the mid 70's, - a welcome delight in a region where the winters are so harsh.

As you might recall in early July I had the privilege to be the camp speaker at a remote youth camp in northern Saskatchewan. Our second oldest daughter, Alayna, got to go with me. It was really a wonderful week, filled with some exciting activities. During the week I preached 7 times, and greatly enjoyed the fellowship with the camp directors and staff. Praise be to God, several campers made a profession of faith during the week!

Our family with Nathan's parents

Y.E.S. (Youth Excited about Salvation). This was her second year there and it was a great time for her to reconnect with friends, have some much needed Christian fellowship, and hear a preacher other than her father. ☺

Following our time in Winnipeg, Becky and our youngest daughter Teryn spent 2 weeks in Ohio, helping Becky's Grandparents pack for a move. This was a special time for Becky to be a support to her Grandparents, as well as visit with our Ohio family.

During the middle of September, I will be out of Rankin Inlet again to attend the Canadian National Pastor's Conference in Saskatchewan. I am looking forward to the opportunity to fellowship with other pastors around the country including some of my arctic co-laborers!

Lord willing I will begin another round of the addiction program at the Correctional Facility at the end of September and we'll be starting up the children's Sunday School soon as well. Please keep our regular church services and other ministries in prayer.

Thank you for your prayer and continued support!!

Nathan Jones and family

Alayna and I at Beacon Bible Camp

After returning from camp, our family had a special visit with my parents and enjoyed showing them the amazing things the arctic summer has to offer. From mussel picking, to walks on the tundra, many lasting memories were made.

On August 2nd Becky and I celebrated our 15th anniversary! We had planned a trip together, but when the plans had to be changed, we ended up all going to Winnipeg, MB for some rest, relaxation, and supply shopping. During that week our oldest daughter Hayleigh flew by herself to Ontario to attend Camp
